## The Manamaker Store

### Our Insured Shoes Make Trouble

SOME two months ago we first advertised Men's black and russet calfskin Shoes at \$3.50, under this are important parts of our stores, carefully looked after and well supguarantee-

"We guarantee the upper leather of these shoes for twelve months from the time of purchase. If any break in the leather appears caused by actual wear, we will exchange the shoes for another pair without charge."

And we put our name to it. Now, we believe that those who read that announcement, and the subsequent statements about these

every possible get-up from a shoes, believed us in a broad, easy, non-contradictory way—we know that our advertisements are believed. foot-ball costume to evening But, if the general public appreciated our newspaper statements as fully as do manufacturers, our present stores would not begin to accommodate those who would come to us for supplies. These statements are sober and candid.

We have no patents on methods—we have no secrets. This business grows because of the work and study given to it. Its possibilities have warranted our sending buyers entirely around the globe and in maintaining organizations here and in Europe that make best service possible.

We have before us whole pages of excited trade discussion about our insuring of shoes. The gist of it bouble Breast - 8 to 10 years - Value 4.98, is, as stated in words in one interview, "The advertisement means what it says" —we, as leather merchants and shoe makers, can only wait to see how it comes out. They fear the day is coming when shoemakers will have to guarantee what they make. Serious. There is a risk in promising that even the most carefully selected to to 17 years—Value 5.98 leather will not break through within a year. We take the risk—so far as it concerns you: no matter who 3 piece—with Vest—10 to 17 years—Value 7.98 stands by us. The shoe producers of the land join in a symposium of discussion over a simple forward step by flavor of originality; cut from the newest clothe of the Old this shoe store. And progress in other lines is watched as closely by the trades concerned. Is there a moral?
